ITEM C/6/150/03/13

Council Meeting

APPROVAL OF FIRST DRAFT IDP 2013 - 2014

Department: Strategic Services **Demarcation:** All Wards
File Ref: 2/8/5
Attachments Annexure "A" – First Draft IDP 2013/2014 (Circulated separately)
Report from: IDP Manager
Date: 20 March 2013

Purpose of the report

In terms of the Municipal Systems Act 32 of 2000, Section 30 the first draft Bitou IDP Review 2013/2014 must be submitted to **Council for comment and approval** prior to the invitation of public comments.

Background/Discussion

In terms of **Section 34** of the **Municipal Systems Act, Act 32 of 2000** a Municipal Council

“

- (a) *must review its integrated development plan –*
 - (i) *annually in accordance with an assessment of its performance measurements in terms of section 41; and*
 - (ii) *to the extent that changing circumstances so demand; and*
- (b) *may amend its integrated development plan with a prescribed process”*

Financial Implication

No financial implications.

Executive Summary

Critical issues emanating from the IDP process for noting:

1. The population of Bitou has grown from 19 000 in 1996 to 46 201 in 2011. The consequence of this growth might have a huge impact on bulk services in the near future.

Section 6: Strategic Services

2. The impact of point 1 above is already affecting the electrical grid. Two to three developments were declined due to their electrical demand. The Municipality was not in a position to approve the developments due to the shortage of electricity. To rectify this, Council need to prioritise bulk services, including electrical supply.
3. Under developed rural areas (Harkerville and Covie). There is a lack of all basic services in Harkerville and the community demands the following:
 - Portable water;
 - Electricity; and
 - Sanitation, as a matter of urgency.
4. Dates of public meetings

3. **SUMMARY OF DISCUSSIONS AND COMMENTS BY THE OVERSIGHT COMMITTEE ON THE 2011 / 2012 ANNUAL REPORT**

The Oversight Committee recommends adoption of the Bitou Municipality Annual Report 2011/12, without any reservations. In coming to the above recommendation, the Oversight Committee considered and discussed the following matters, which it wishes to bring to the attention of the Council:

1. The Annual Report must be made easier to read. The layout of the report, the content and addition of annexures makes it difficult to read. In future, the report must be provided with an executive summary and the layout should be by Department.
2. The Annual Report should contain a management report in every sector, i.e. per Department.
3. Communication between the Municipality and the residents requires attention. The Annual Report is not sufficiently distributed and the issues therein are not known to the general public. A concerted effort must be made to establish a communications strategy and to implement it prior to the next Annual Report being published.
4. A system for comparison of figures must be developed, to assist residents and all stakeholders to interpret the Annual Report, including the financial statement contained therein. Comparisons between expenditure and budget, previous and prior year expenditure and financial information must be summarised and included in the report.
5. EPWP. Better Management and Control over this program and in the controlling Department is required. On the one hand there is not sufficient evidence of EPWP benefits and on the other the programs that are visible do not achieve the objectives envisaged for them, due to extremely low productivity.
6. LED. An advice centre must be established to assist the public in setting up SMME's.
7. Customer Care and Emergency line should be communicated to the public.
8. Management remuneration and performance management. Bonuses were paid to some Managers and to others not. There is no evidence of a performance management system that was applied to determine who could or could not receive bonuses, i.e. all Section 57 Managers should receive equal bonuses for the year in review.

9. Master plans. The various Master Plans and Disaster Management Plan seem not to be in place, which causes concern. In the current financial year, all master plans required in terms of legislation should be completed, updated or commenced and programmed for completion in the minimum time required for them. Master Plans guide investment and without them it is difficult to agree on priorities and objectives.
10. Ward Committees. Ward Committees should be activated to play the role intended in the functioning of the Municipality. Suitable provision must be made for support and functioning of the Ward Committees.
11. Water and electricity losses. There is ample evidence of illegal connections for the supply of water and electricity to a range of users (high end consumers to low volume users). Immediate steps must be taken to prevent further losses and to recover losses experienced over the last few years, inclusive of suitable internal controls to limit future losses.
12. IDP. There is sufficient evidence to indicate that the IDP is not applied in the management of the Municipality. There is not a link between the IDP, the budget and performance management.
13. Overtime policy. The Municipality must reduce the spending on overtime and introduce a new policy that will limit spending and increase productivity.
14. What is the maintenance plan? The maintenance plan of the Municipality is not suitably explained or detailed.
15. Meter readers. The Meter Reader Section must receive support to facilitate an improved service.

The above comment reflects the analysis and discussion of the Annual Report on 12 and 18 March 2013 by the Oversight Committee. During the meetings, the Committee called on various officials, the Chairman of the Audit Committee and community representatives to provide information, comment and advice. The minutes of the meetings are attached hereto for reference as required in the legislation.

That the Municipal Council, having fully considered the annual report, adopts the Oversight Report and the Municipal Council approves the Annual Report without reservations.
