Glossary

Adjustments budget – Prescribed in section 28 of the MFMA. The formal means by which a municipality may its annual budget during the year.

Allocations - Money received from Provincial or National Government or other municipalities.

Budget – The financial plan of the Municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timing. For example, when an invoice is received by the Municipality it is shown as expenditure in the Quarter it is received, even though it may not be paid in the same period.

DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share – A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP - Integrated Development Plan. The main strategic planning document of the Municipality

MBRR – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA – Local Government: Municipal Finance Management Act (56/2003). The principle piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

Operating expenditure – Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising monthly performance targets and monthly budget estimates.

Strategic objectives – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure – Generally, is spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and (b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

Legislative Framework

This report has been prepared in terms of the following enabling legislation. The Municipal Finance Management Act – No. 56 of 2003 Section 52(d) quarterly budget statements. Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations (MBRR)

PART 1 - IN-YEAR REPORT

Section 1 – Quarter 4 Report

1.1 In-Year Report – Quarterly Budget Statement

The report outlines the financial performance and position of the municipality for the quarter ended 30 June 2023. The budget of the municipality is compiled with the objective that Bitou municipality remains a financially viable and sustainable institution. The latter could be achieved if the municipality spend its budget prudently.

The financial viability is measured through the, liquidity ratio, current ratio and quick ratio, these ratios are critical in terms of evaluating the ability of the municipality to meet its short term obligation.

Although the plan to monitor the implementation of the current year's budget under strict conditions, management has not been consistent in following its internal procedures and protocols which makes it challenging to detect wrongful transactions, and these are only detected after the event.

As can be seen on the C7 Cash flow statement, the current cash, and cash equivalents as at the quarter ended June 2023 amounts to R 95.5 million. The municipality on average requires an amount in excess of R65 million to cover its monthly operational expenditure, this includes the cost associated with the payment of employee cost and suppliers. It however excludes payments made to suppliers for capital assets.

Section 2 – Resolutions

IN-YEAR REPORTS 2022/2023

This is the resolution that will be presented to Council when the In-Year Report is tabled:

RECOMMENDATION:

• That Council notes the quarterly budget statement and supporting documentation for the quarter ended 30 June 2023.

Section 3 – Executive Summary

3.1 Introduction

The quarterly budget statement has been prepared in terms of the Municipal Budget and Reporting Regulations and section 52(d) of the Municipal Finance Management Act 56 of 2003.

Revenue by Source

Property Rates

Property rates for the quarter amounts to R37.5 million. The YTD actual, amount to R151.8 million compared to YTD budget of R152.7 million. Compared to the 3rd quarter the performance relatively remains the same. This can mainly be ascribed to the adjustment budget that brought this line item inline with the year-to-date budget and full year forecast.

Electricity

Revenue from electricity as at the end of quarter 4 amounts to a YTD actual R211.5 million and when compared to the YTD budget of R201.6 million it translates to a 5% over performance. This revenue item relatively remains consistent with the previous quarter. Electricity revenue is influenced by fluctuating consumption during peak and off-peak periods which is evident as the performance is improving as we enter the peak season. The prolonged load shedding remains a point of concern even though performance of this revenue item has improved.

Water Service

Water revenue as at end of June 2023 amounts to R85.3 million while YTD budget amounts to R88 million. This is a 2% increase in under-performance from the previous quarter which can mainly be ascribed to the water restrictions that are currently in place, coupled to the colder and wetter weather conditions and seasonal consumption patterns, load shedding also impacts on the municipality's ability to deliver water to end-users resulting in lower consumption trends establishing.

Sanitation Service

Sanitation revenue as at end of quarter 4 amounts to R78.3 million while YTD budget amounts to R85.5 million. This translates to 8% under-performance for this category of revenue which is similar to the previous quarters figure of 6%. The revenue source was adjusted downwards however it still underperformed.

The reason for the under-performance is due to an increase in indigent customers for the year with the figure increasing from 3404 to 4132 for the year The increase in indigents coupled with the rebate received, in turn reduced the anticipated revenue collection.

Refuse Service

Refuse revenue as at the end of quarter 4 amounts R45.7 million while the YTD budget amounts to R48.3 million. This revenue source has throughout the financial year underperformed even after the downward adjustment in the revenue source was done in the mid-year adjustments budget. This category of revenue falls part of the revenue enhancement programme and an upward trend was expected in the last quarter of the financial year; however this did not materialise and a concerted effort must be made in the new financial year to ensure this revenue source is performing adequately as the municipality invested a sizeable amount of capital for this function.

Rental of Facilities and Equipment

The revenue for rental of facilities and equipment as at the end of quarter 4 amounts to R1.06 million. This source of revenue has also continuously under-performed throughout the year. This source of revenue was adjusted downward as it has consistently underperforming based on the previous reports and based on the first quarterly report after the adjustment budget, consideration has been given in the annual budget for this item to make sure tariffs and collection efforts are in line. Revenue from this source is dependent on the community's need to make use of municipality's various facilities and it can be difficult to predict.

Interest earned on external investment and outstanding debtors

Interest earned on external investment and outstanding debtors' revenue as at end of end of quarter 4 amounts to R8 million and R21.4 million respectively while the YTD budget amounts to R5.7 million and R18.4 million respectively. The investments are continuing to show a positive result and was adjusted upwards in the 3rd adjustment budget. The interest on outstanding debtors is also showing a positive of trend, however it is doubtful that the municipality would be able to collect it.

Revenue for fines, penalties and forfeits

Revenue from Fines as at the end of quarter 4 amounts to R28.2 million compared to the YTD budget of R25.8 million. This is an over performance of 10% which is likely to increase even more as revenue for the month of June 2023 will be recognised as part of the year end processes under quarter 4.

Transfers and Subsidies

Revenue from Transfers and Subsidies amounts to R151 million for the quarter ending June 2023. Revenue from Transfers and Subsidies is performing adequately and is in-line with budgeted targets. It is anticipated that this result may improve after the finalisation of the year-end accruals.

Other revenue

Other revenue as at the end of quarter 4 amounts to R10.2 million. This is 6% above the anticipated YTD budget. The major contributor of the revenue remains Building Plan Approval fees, Development Charges, Town Planning Fees, Fire Services, Staff and Councillor Recoveries etc.

Total revenue as at the end of quarter amounts to R796.8 million compared to the R630.5 million reported in the previous quarter.

Expenditure

Employee related cost

Employee related cost amounts R299.9 million, while the YTD budget amounts to R307.9 million. This translates to an under performance of 3%, consistent with Quarter 3. The main factor contributing to the under-spending remains the vacant positions that have not been filled to date coupled with the year-end post-retirement and employee benefits provision that still needs to be made.

Remuneration of councillors

Remuneration of councillors as at the end of quarter 4 amounts to R6.2 million. This expenditure item is underperforming by 3% with the year-end post-retirement and employee benefits provision that still needs to be made.

Debt Impairment

Debt Impairment as at end of June amounted to R62.7 million. The YTD budget amounts to R112.6 million. This translates to an under performance of 44% It is however expected that the budgeted expenditure target will be met for the financial year as final write-offs and impairment calculations will be performed as part of the year end process.

Bulk Purchases

Bulk purchases relate to payments made to Eskom for electricity, the expenditure as at the end of quarter 4 amounts to R148.5 million compared to R173.9 million YTD budget, thus reporting an under performance of 15%. All payments to Eskom until May 2023 are reflected in the YTD figure. It is therefore anticipated that the expenditure target for this item will be met upon the payment of the final year end creditors which will include the June 2023 Eskom account accrual.

Depreciation

Depreciation as at the end of June 2023 amounts to R35.7 million compared to R38.2 million YTD budget. This item is anticipated to overperform even with a 6% under performance. Final actual expenditure for this item will reflect most accurately at the end of the financial year when the asset register is finalised.

Inventory Consumed

Expenditure for this item as at end of June 2023 amounts to R14.2 million while the YTD budget amounts to R17.7 million. This expenditure item is under-performing by 20% when compared to the YTD budget. This expenditure type relates to the consumption of materials and supplies/inventory at the stores and the trend of underperformance continued from the previous quarter. This item will be monitored in the 2023/24 budget to ensure spending occurs in line with the budget.

Contracted Services

Expenditure as at end of June 2023 amounts R62.2 million and under-performed by 37% when compared to the YTD budget of R98 million. The under expenditure remains relatively the same from the previous month, a slight increase may be evident after the conclusion of the year-end processes.

Transfers and subsidies

Expenditure as at end of June amounts R5.6 million compared to the YTD budget of R7.73 million. An under performance of 23% is reported at the end of the quarter. The percentage is expected to increase upon conclusion of the year-end processes.

Other expenditure

Other expenditure as at end of June 2023 amounts to R64.9 million while the YTD budget amounts to R80.3 million, which translates to an under performance of 19%. This include items such as the rental expenses for offices accommodation, insurance, travel and subsistence and telephone accounts. Some of the major contributors to this expenditure category is postage cost, external audit fees, bank charges and commission on prepaid electricity.

Total expenditure as at end of June 2023 amounts to R709.3 million. The municipality is reporting an operating surplus of R1.7 million for the quarter ending June 2023 compared to R45.9 million in quarter 3 and a surplus of R120.1 compared to quarter 3 where we saw a R117.4 million YTD actual.

Conclusion on Financial Position and performance

The financial performance as at end of June 2023 has decreased from the previous Quarter as expected as part of the year end processes. The current cash flow is sufficient to meet the short-term operations however, for the medium and long term it is still not sufficient to sustain operations. The current ratio is just within the best practice norms.

The liquidity position is not yet ideal and a concerted effort is necessary to ensure the financial turnaround of the municipality. It is anticipated that positive results will be evident in the 2023/2024 financial year as both the revenue enhancement strategy and the debt collection efforts gain momentum.

Section 4 – In-year budget statement tables

4.1 Quarterly budget statements

The tables included in section 4 to the end of this report are from the 'C Schedule quarterly Budget Statement legislated as part of the MBRR.

Below tables analyse the income and expenditure by Function and the performance of each sub function. As mentioned above the performance will increased with the implementation of the SDBIP.

Table below relates to the budget performance by municipal vote. Most of the departments has underspent on their expenditure budget however, collections are in line on their revenue budget as seen below.

See tables below C1 and C3 for the quarter ended 30 June 2023.

Capital Expenditure Analysis

Capital Expenditure for the month amounts to R36.5 million and YTD expenditure as at end of June 2023 amounts to R75.8 million. It is also anticipated that the actual percentage will increase after year-end accruals are done.

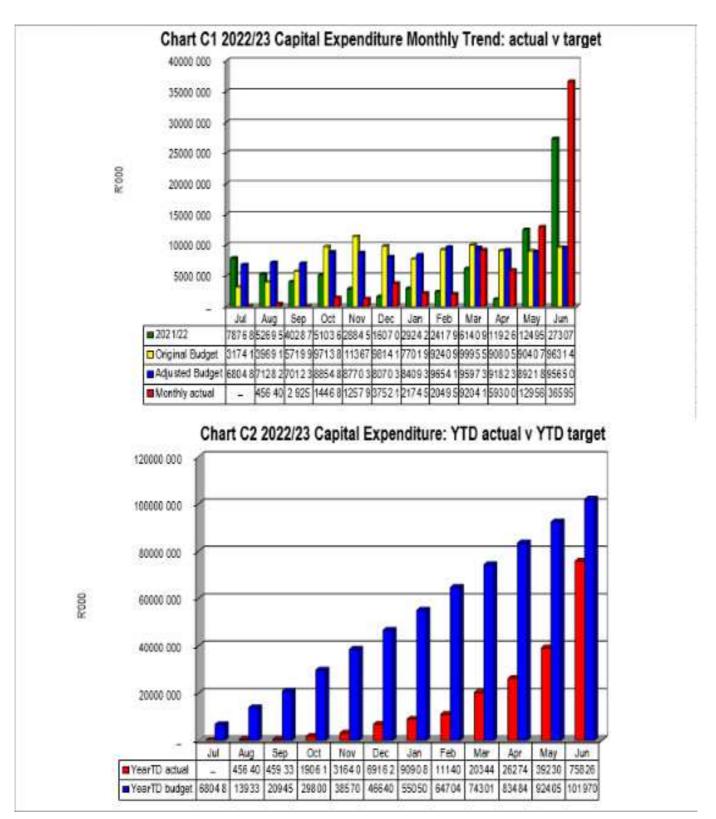

It should be noted that majority of the approved capital projects are at 74% spending which means these projects are under-performing. The expenditure pattern over years indicates that where department fail to meet 25% spending target in the first quarter, its either they will not spend 100% of their allocated budget, therefore resulting in budget being forfeited and adjusted due non-performance.

Where conditional grant funds remain unspent at 30 June, rollover processes needs to be followed for the retention thereof, all departments have already been made aware of their responsibility in this regard, non-compliance with the rollover processes will result in the forfeiting of the unspent portions of the grants.

The table above reflects the statement of financial position of the municipality. The total current assets at the end of June 2023 amounts to R 215.8 million compared to R 243.6 million reported in March 2023. This decrease is a result of a decrease in the cash and investment due to payments done at year-end in respect of creditors.

The municipality reports total short-term investments of R45.2 million and cash in the amount of R50.3 million for June 2023, compared to R97.5 and R33.5 million of the previous quarter. The municipality reports a positive cashbook balance of R50.2 million.

The current liabilities at the end of the quarter amounts to R126 million compared to R99.3 million in the previous quarter. The current ratio for the quarter equates 1.71:1, which is just below best practice norms. It should be noted that the current ratio has decreased from the 2.45:1 in March 2023. The higher the current ratio, the more capable the municipality will be to pay its current or short-term obligations.

The municipality is reporting a positive R66.5 million on monthly actual net cash from operating activities. This represents a significant increase from the actual net cash from operating activities of March 2023 that amounted to R56.2 million. These are mostly month to month operating expenses and operating income.

Monthly actual net cash (**used**) on investing activities is reported at R37.7 million is mostly influenced by spending on capital projects.

The net cash (**used**) for financing activities are mostly influenced by the repayment of loans. The repayment of loans June 2023 amounted to R26.9 million.

The bi-annual redemption of June 2023 amounted to R8.4 million. The next payment will occur in December 2023

Debtor's age analysis

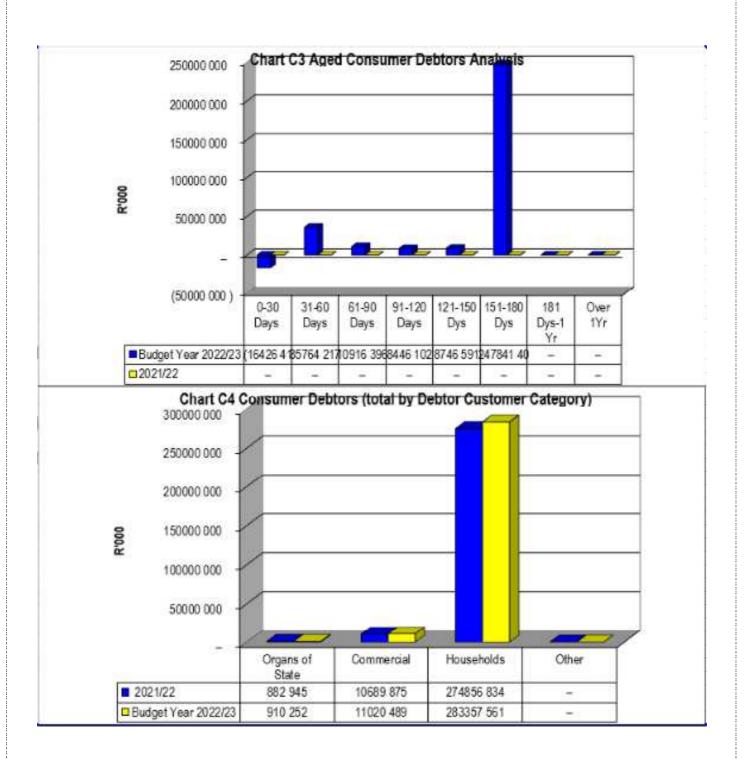

The debtors' book of the municipality reflects R 256.6 million on outstanding debtors older than 120 days and a total outstanding amount of R 295.3 million. Total debtors has decreased by R2.2 million compared to the previous quarter.

The contributors to the outstanding debt remain the household debt which represent 96% of total debt, followed by businesses with 3.7% and organs of state contributing 0.3%.

The municipality has monthly debt collection strategies to help ensure that outstanding revenue is collected, which includes blocking prepaid electricity for users in arears and applying water restrictions in arears where Eskom is the electricity distributor. Customers are informed prior to these actions being implement by way of a disconnection notice. Disconnection notices are sent monthly out to all customers with outstanding accounts after the due date which is 7th of every month.

The collection rate for the month of June 2023 is 94.37%. See below debtor payment percentage achieved from April 2023 until June 2023
