Glossary

Adjustments budget – Prescribed in section 28 of the MFMA. The formal means by which a municipality may its annual budget during the year.

Allocations – Money received from Provincial or National Government or other municipalities.

Budget – The financial plan of the Municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timing. For example, when an invoice is received by the Municipality it is shown as expenditure in the Quarter it is received, even though it may not be paid in the same period.

DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share – A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP – Integrated Development Plan. The main strategic planning document of the Municipality

MBRR – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA – Local Government: Municipal Finance Management Act (56/2003). The principle piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

Operating expenditure – Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising monthly performance targets and monthly budget estimates.

Strategic objectives – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure – Generally, is spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and (b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

Legislative Framework

This report has been prepared in terms of the following enabling legislation. The Municipal Finance Management Act – No. 56 of 2003 Section 52(d) quarterly budget statements. Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations (MBRR)

PART 1 - IN-YEAR REPORT

Section 1 – Quarter 1 Report

1.1 In-Year Report - Quarterly Budget Statement

The report outlines the financial performance and position of the municipality for the quarter ended 30 September 2023. The budget of the municipality is compiled with the objective that Bitou municipality remains a financially viable and sustainable institution. The latter could be achieved if the municipality spend its budget prudently.

The financial viability is measured through the, liquidity ratio, current ratio and quick ratio, these ratios are critical in terms of evaluating the ability of the municipality to meet its short term obligation.

As can be seen on the C7 Cash flow statement, the current cash, and cash equivalents as at the quarter ended September 2023 amounts to R123.2 million, however the trial balance shows an amount of R241.5 million. This is mainly due to the migration of the bank reconciliation to the modernised financial system, which will be in-line before the end of the second quarter. The municipality on average requires an amount in excess of R65 million to cover its monthly operational expenditure, this includes the cost associated with the payment of employee cost and suppliers. It however excludes payments made to suppliers for capital assets.

Section 2 – Resolutions

IN-YEAR REPORTS 2023/2024

This is the resolution that will be presented to Council when the In-Year Report is tabled:

RECOMMENDATION:

• That Council notes the quarterly budget statement and supporting documentation for the quarter ended 30 September 2023.

Section 3 – Executive Summary

3.1 Introduction

The quarterly budget statement has been prepared in terms of the Municipal Budget and Reporting Regulations and section 52(d) of the Municipal Finance Management Act 56 of 2003.

Consolidated performance

Revenue by Source

Property Rates

Property rates for the quarter amounts to R45.8 million. When compared to the anticipated YTD budgeted revenue, this quarter shows an over performance of 2%. This can mainly be ascribed to the removal of rebates to customers with a property value above R1 million and the reduction in the rebate amount to individuals whose property value is between R350 000 and R1 million, coupled with the annual rates levied.

Electricity

Revenue from electricity as at the end of the first quarter amounts to a YTD actual R59.5 million and when compared to the YTD budget of R60.5 million it translates to a 2% under-performance. Electricity revenue is influenced by fluctuating consumption during peak and off-peak periods and as we are in the peak season it is expected that an increase in consumption will occur. The prolonged load shedding remains a point of concern and as the lower demand is expected to negatively impact on this revenue source.

Water Service

Water revenue as at end of September 2023 amounts to R19.6 million while the YTD budget amounts to R21.7 million. This represents a 9% under-performance and is consistent with the colder and wetter weather conditions and seasonal consumption patterns. Load shedding also impacts on the municipality's ability and the cost associated with the delivery of water to end-users resulting in lower consumption trends establishing with increasing costs.

Sanitation Service

Sanitation revenue as at end of quarter 1 amounts to R18.5 million while YTD budget amounts to R19.4 million. This translates to a 5% under-performance for this category of revenue.

Attention must be drawn to the increase in indigent customers that have a huge impact on the revenue collection. Last year for quarter 1, the indigent base was at 2 275 customers while in this year, 2023, we have 4 836 customers, more than double from the previous quarter.

Refuse Service

Refuse revenue as at the end of quarter 1 amounts R12.0 million while the YTD budget amounts to R14.5 million. This is an under performance of 17%.

This category of revenue forms part of the focus areas of the revenue enhancement programme and a concerted effort will be made in the current financial year to ensure this revenue source is performing adequately as the municipality is investing a sizeable amount of capital for improving this function.

As per the explanation given under sanitation, our indigent base has a huge impact on our revenue collection and the under collection is showing this.

Rental of Fixed assets

The revenue for rental from fixed assets for September 2023 amounts to R 325 545. This source of revenue is over performing by 26%. Revenue from this source is dependent on the community's need to make use of municipality's various facilities and it can be difficult to predict.

Interest earned on external investment and outstanding debtors

Interest earned on external investment and outstanding debtors' revenue amounts to R 2.2 million and R 5 million respectively, which in turn equates to an over-performance of 76% and 52% respectively for this revenue source. The interest on outstanding debtors, although performing above anticipation, is unlikely to be collected by the municipality.

Revenue for fines, penalties and forfeits

Revenue from Fines as at the end of quarter 1 amounts to R7.5 million compared to the anticipated budgeted revenue of R7.9 million. This is an under-performance of 5%.

Transfers and Subsidies

Revenue from Transfers and Subsidies amounts to R60.3 million for the quarter ending September 2023. Revenue from Transfers and Subsidies is under-performing with a percentage of 5%. It is anticipated that this result may come in-line with the budgetary predictions during the course of the financial year. We attempted to align the budget with the previous schedule to ensure that the items align.

Operational revenue

Other revenue as at the end of quarter 4 amounts to R10.2 million. This is 6% above the anticipated YTD budget. The major contributor of the revenue remains Building Plan Approval fees, Development Charges, Town Planning Fees, Fire Services, Staff and Councillor Recoveries etc.

Total revenue as at the end of the quarter amounts to R63.4 million. YTD revenue compared to YTD anticipated budgeted revenue for the quarter amounts to an under-performance of 3%. This, however, exclude revenue from capital contributions.

Expenditure

Employee related cost

Employee related cost amounts R66.5 million, while the YTD budget amounts to R83 million. This translates to an under performance of 20%. The main factor contributing to the under-spending remains the vacant positions that have not been filled to date.

Remuneration of councillors

Remuneration of councillors as at the end of quarter 1 amounts to R1.7 million. This expenditure item underperforming by 14%, the notice determining the upper limits of remuneration for public office bearers has been published and as soon as it is approved by council and concurrence is obtained from the MEC, it will be implemented, this will result in the expenditure drawing closer to the budget in future reporting periods.

Debt Impairment

No Debt Impairment has been recorded for quarter 1.

Bulk Purchases

Bulk purchases relate to payments made to Eskom for electricity, the expenditure as at the end of quarter 1 amounts to R47.3 million compared to R62.7 million YTD budget, thus reporting an under performance of 24%. All payments to Eskom for the month of August 2023 and a partial payment for September 2023 has been included in this figure. Eskom payments are based on the consumption of the month and are normally due in the month following.

Depreciation

Depreciation as at end September 2023, quarter 1, amounts to R10.0 million which is in line with the anticipated budget and thus performing adequately.

Inventory Consumed

Expenditure for this item as at end of September 2023 amounts to R1.9 million while the YTD budget amounts to R4.9 million. This expenditure item is under-performing by 60%. This expenditure type relates to the consumption of materials and supplies/inventory at the stores and the trend is expected to increase as we are only in quarter 1.

Contracted Services

Expenditure as at end of September 2023 amounts R3.3 million and under-performed by 86% when compared to the YTD budget of R23.9 million. It is expected that this category of expenditure will increase once all contracts have been concluded, the work is executed and payments are made during the remainder of the financial year.

Transfers and subsidies

Expenditure as at end of September 2023 amounts R2.7 million compared to the YTD budget of R3.0 million. An under-performance of 11% is reported for the quarter.

Operational Cost

Operational Cost YTD actuals after September 2023 amounts to R13.2 million while the YTD budget amounts to R22.3 million, which translates to an under performance of 41%

This includes items such as the rental expenses for offices, accommodation, insurance, travel and subsistence and telephone accounts. Some of the major contributors to this expenditure category is postage cost, external audit fees, bank charges and commission on prepaid electricity. It is also anticipated that this category of expenditure will gradually increase over the remainder of the financial year as operational activities gain momentum.

Total expenditure as at end of September 2023 amounts to R58.8 million for the month. The municipality is reporting an operating surplus of R72.8 million for the quarter.

Conclusion on Financial Position and performance

The financial performance as at end of September 2023 has greatly approved from the previous year,2022, quarter 1 report where the surplus amounted to R44.2 million. We are now reporting a R72.8 million surplus, an increase of R28.6 million. The current cash flow is sufficient to meet the short and medium-term operational requirements however, it is still not sufficient to sustain operations in the long term. The current ratio is below the best practice norms. The liquidity position remains volatile and a concerted effort is still necessary to ensure the financial turnaround of the municipality.

The implementation of the financial recovery plan, especially the revenue enhancement strategy, receives dedicated attention to aid in the financial turnaround and to ensure that financial viability and long-term sustainability will be attained. It is expected that the results of the revenue enhancement program will be evident towards the end of the 3rd quarter of the current financial year.

Section 4 – In-year budget statement tables

4.1 Quarterly budget statements

The tables included in section 4 to the end of this report are from the 'C Schedule quarterly Budget Statement legislated as part of the MBRR.

Below tables analyse the income and expenditure by Function and the performance of each sub function. As mentioned above the performance will increased with the implementation of the SDBIP.

Table below relates to the budget performance by municipal vote. Most of the departments has underspent on their expenditure budget however, collections are in line on their revenue budget as seen below.

See tables below C1 and C3 for the quarter ended 30 September 2023.

Capital Expenditure Analysis

Capital Expenditure for the quarter amounts to R 4.1 million.

It should be noted that majority of the approved capital projects are at 4% spending which means these projects are under-performing. The expenditure pattern over years indicates that where department fail to meet 25% spending target in the first quarter, its either they will not spend 100% of their allocated budget, therefore resulting in budget being forfeited and adjusted due non-performance. It should also be noted that the commitments (shadow balances) loaded on the FMS amounts to R26.9 million, which translates to 23% of the total capital budget still being under shadow.

It is crucial to prioritise spending on grants as historic trends in slow spending has shown us that departments tend to go for rollover applications process as they did not fully spend on their projects, and these applications at times get rejected

Capital Grants Analysis

| Grants | Original Budget | Amended Budget | Shadow Balance | Q1-YTD Expenditure |

The table above reflects the statement of financial position of the municipality. The total current assets at the end of September 2023 amounts to R614.6 million. The municipality reports total short-term investments at R 94.6 million and cash of R28.5 million for the month. The municipality reports a positive cashbook balance of R28.5 million...

The current liabilities for the quarter amounts R479.0 million. The current ratio for the quarter equates 1.28:1, which is below best practice norms. However this is not a true reflection as the anomalies mentioned previously skew the picture of the ratio and once resolved will have a better outlook. The higher the current ratio, the more capable the municipality will be to pay its current or short-term obligations.

The municipality is reporting a positive R151.6 million on YTD actual net cash from operating activities. These are mostly month to month operating expenses and operating income and a sharp increase is usually anticipated upon the start of the book year as procurement processes are only starting.

Monthly actual net cash (**used**) on investing activities is reported at R4.1 million is mostly influenced by spending on capital projects.

The net cash (**used**) for financing activities are mostly influenced by the repayment of loans. The repayment of loans as at September 2023 amounted to R1.1 million.

The previous bi-annual redemption was done in June 2023. The next payment will occur in December 2023

The municipality reports cash and cash equivalents amounting to R123.2 million, however the trial balance shows an amount of R 241.5 million . This is mainly due to the migration of the bank reconciliation to the modernised financial system, which will be in-line before the end of the second quarter. Cash and Cash equivalents includes cash at bank and short-term investment

Debtor's age analysis

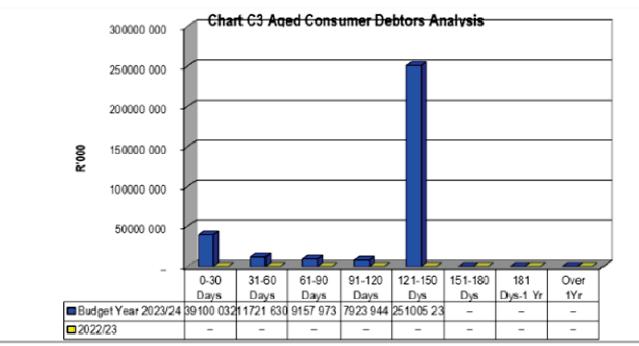

The debtors' book of the municipality reflects R 251.0 million on outstanding debtors older than 121 days and a total outstanding amount of R 318.9 million.

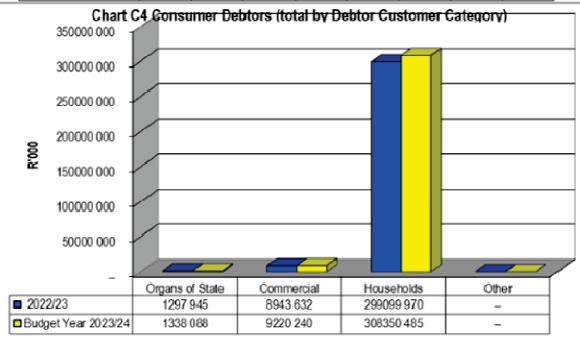

The contributors to the outstanding debt remain the household debt which represent 96.7% of total debt, followed by businesses with 2.9% and organs of state contributing 0.4%

The municipality has monthly debt collection strategies to help ensure that outstanding revenue is collected, which includes blocking prepaid electricity for users in arears and applying water restrictions in arears where Eskom is the electricity distributor. Customers are informed prior to these actions being implement by way of a disconnection notice. Disconnection notices are sent monthly out to all customers with outstanding accounts after the due date which is 7th of every month.

The collection rate for quarter 1 is 85%. See below debtor payment percentage breakdown achieved from July 2023 to September 2023. There was an error in the calculation for August 2023 and has now been rectified

Investment portfolio analysis

The municipality has investments with a total value of R94.6 million as at September 2023. Interest earned on fixed deposits will only be recognised upon maturity, but it will be accrued at year end.

Anomalies identified in the report

Various anomalies were identified in the report have been highlighted in the appropriate sections, the cause of said anomalies are ascribed to the implementation of the financial system's SCM module and Web functionality. Continuous engagements between the municipality and the service provider are underway to resolve the inadequacies in reporting and to resolve same to ensure more accurate reporting in the future reporting periods.

Municipal manager's quality certification

Municipal manager's quality certification

An in-year report must be covered by a quality certificate in the format described below:

| QUALITY CERTIFICATE |
|--|
| I, Mbulelo Memani , the Municipal Manager of Bitou Local Municipality, hereby certify that - (mark as appropriate) |
| The monthly budget statement |
| X Quarterly report on the implementation of the budget and financial state of affairs of the municipality |
| Mid-year budget and performance assessment |
| For the quarter ended 30 September 2023 has been prepared in accordance with the Municipal Finance Management Act and regulations made under that Act. |
| Signature |
| Print Name: Mr. M Memani |
| Municipal Manager of Bitou Local Municipality – WC047 |
| Date 11/13/2023 |
