#### Glossary

**Adjustments budget** – Prescribed in section 28 of the MFMA. The formal means by which a municipality may adjust its annual budget during the year.

Allocations - Money received from Provincial or National Government or other municipalities.

**Budget** – The financial plan of the Municipality.

**Budget related policy** – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

**Capital expenditure** - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

**Cash flow statement** – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timing. For example, when an invoice is received by the Municipality it is shown as expenditure in the Quarter it is received, even though it may not be paid in the same period.

**DORA** – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

**Equitable share** – A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

**Fruitless and wasteful expenditure –** Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

**GFS** – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP - Integrated Development Plan. The main strategic planning document of the Municipality

**MBRR** – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

**MFMA** – Local Government: Municipal Finance Management Act (56/2003). The principle piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

**MTREF** – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

**Operating expenditure** – Spending on the day-to-day expenses of the Municipality such as salaries and wages.

**Rates** – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

**SDBIP** – Service Delivery and Budget Implementation Plan. A detailed plan comprising monthly performance targets and monthly budget estimates.

**Strategic objectives** – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure – Generally, is spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

**Virement policy -** The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

**Vote** – one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and (b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

#### Legislative Framework

This report has been prepared in terms of the following enabling legislation. The Municipal Finance Management Act – No. 56 of 2003 Section 52(d) Quarterly budget statements. Local Government: Municipal Finance Management Act (56/2003): Municipal Budget and Reporting Regulations (MBRR)

### PART 1 – IN-YEAR REPORT

### **Section 1 – Quarter 4 Report**

#### 1.1 In-Year Report – Quarterly Budget Statement

The report outlines the financial performance and position of the municipality for the quarter ended 30 June 2024. The budget of the municipality is compiled with the objective that Bitou Municipality remains a financially viable and sustainable institution. The latter could be achieved if the municipality spends its budget prudently.

The financial viability is measured through the liquidity ratio, current ratio and quick ratio. These ratios are critical in terms of evaluating the ability of the municipality to meet its short-term obligations.

As can be seen on the C7 Cash flow statement, the current cash, and cash equivalents as at end of the quarter amounts to R184.4 million. The municipality on average requires an amount in excess of R65 million to cover its monthly operational expenditure, this includes the cost associated with the payment of employee cost and suppliers. It however excludes payments made to suppliers for capital assets.

### **Section 2 – Resolutions**

### IN-YEAR REPORTS 2023/2024

This is the resolution that will be presented to Council when the In-Year Report is tabled:

#### **RECOMMENDATION:**

• That Council notes the quarterly budget statement and supporting documentation for the quarter ended 30 June 2024.

### **Section 3 – Executive Summary**

#### 3.1 Introduction

The quarterly budget statement has been prepared in terms of the Municipal Budget and Reporting Regulations and section 52(d) of the Municipal Finance Management Act 56 of 2003.

### **Consolidated performance**

#### **Revenue by Source**

#### **Property Rates**

Property rates for the end of quarter amounts to R178.2 million. When comparing the YTD actuals with the YTD budget, the revenue source is performing adequately and the annual budgeted revenue target will be met.

#### Electricity

YTD Revenue from electricity amounts to R228.2 million. Anticipated budgeted revenue amounted to R232.7 million, which is an under performance of 2%. Electricity revenue is influenced by fluctuating consumption during peak and off-peak periods. The prolonged load shedding remains a point of concern, coupled with the effect of SSEG.

#### Water Service

Water revenue as at end of June 2024 amounts to R85.6 million while the YTD budget amounts to R82.9 million. This represents a 3% over-performance, consistent with the previous months report. Looking at the current season and anticipating the colder months ahead, consumption generally decreases.

#### **Sanitation Service**

Sanitation revenue amounts to R67.4 million while YTD budget amounts to R66.9 million, meaning this revenue source is performing adequately. The revenue item was adjusted downward and is still being monitored to ensure its performance remains adequate through the revenue enhancement program.

#### **Refuse Service**

Refuse revenue as at the end of June 2024 amounts R44.9 million while the YTD budget amounts to R46.8 million, which represents a 4% underperformance. This revenue source forms part of the focus areas of the revenue enhancement programme and a concerted effort will be made in the current financial year and the next to ensure this revenue source is performing adequately as the municipality has invested a sizeable amount of capital for improving this function.

### **Rental from Fixed Assets**

The revenue for rental from fixed assets for June 2024 amounts to R 1.4 million. This source of revenue is over performing by 21%. Revenue from this source is dependent on the community's need to make use of municipality's various facilities and it can be difficult to predict.

#### Interest earned on external investment and outstanding debtors

Interest earned on external investment and outstanding debtors' revenue amounts to R 13.2 million and R 13.2 million respectively, which in turn equates to an overperformance of 9% and a under-performance 14% respectively for this revenue source. The interest on outstanding debtors remains doubtful to be collected by the municipality and provision for irrecoverable debt is therefore made as part of the annual financial statement processes.

### **Revenue for fines, penalties and forfeits**

Revenue from Fines as at end of June 2024 amounts to R37.3 million compared to the anticipated budgeted revenue of R45.1 million. This is an underperformance of 17%. Revenue recognition for the remainder of the revenue will be done as part of the Year end Annual Financial Statement preparation, as the service provider has to give a final report for the entire financial year. Taking the revenue still to be accounted for into consideration, the revenue source will be adequately performing.

### **Transfers and Subsidies**

Revenue from Transfers and Subsidies amounts to R161.5 as at end of June 2024. This revenue source has an under-performance of 8%. It is anticipated that this result may come in-line with the budgetary predictions as the final revenue recognitions are done as part of the finalisation of the Grant Reconciliation.

#### Sale of Goods and Rendering of Services

Revenue collected as at end June 2024 amounts to R7.4 million compared to an anticipated R11.6 million. This revenue source includes items such as building plan approval fees, town planning, fire services, staff housing etc.

#### **Operational revenue**

Revenue collected as at end June 2024 amounts to R9.2 million compared to an anticipated R11.2 million. The major contributor of the revenue development charges, and landing fees.

**Total revenue** at the end of the quarter amounts to R65.3 million. YTD revenue compared to YTD anticipated budgeted revenue for the quarter amounts to an under-performance of 4%. This, however, exclude revenue from capital contributions.

### **Expenditure**

#### **Employee related cost**

Employee related cost the YTD budget amounts to June 2024 amounts to R37.1 million. The YTD budget amounts to R345.6 million and YTD actuals equates to R336.9 million. In totality it translates to an under-performance of 2%, bearing in mind that the final employee benefit provisions still need to be concluded as part of the Financial Statement preparation.

#### **Remuneration of councillors**

Remuneration of councillors as at end of June 2024 amounts to R 7.3 million. This expenditure item is underperforming by 5%.

### **Debt Impairment**

No Debt Impairment was done for the quarter, this will be done as part of the year end processes.

#### **Bulk Purchases**

Bulk purchases relate to payments made to Eskom for electricity, the expenditure as at end of June 2024 amounts to R175.8 million compared to R196.2 million YTD budget, thus reporting an under performance of 10%. Eskom payments are based on the consumption of the month and are normally due in the following month which will equate to R14 million. Considering the final invoices still to be paid, we anticipate the revenue source to come more in-line with the budgeted figure.

### Depreciation

Depreciation as at end June 2024 amounts to R37.4 million which translates to an underperformance of 7%. This expenditure line will even out, after the capitalisation as part of the year end processes, with the anticipated budget.

#### **Inventory Consumed**

Expenditure related to this item as at the end of June 2024 amounts to R16.1 million while the YTD budget amounts to R20.5 million. This expenditure item is under-performing by 21% when compared to the YTD budget.

### **Contracted Services**

Expenditure as at end of June 2024 amounts to R62.5 million and is under-performing by 36% when compared to the YTD budget of R97.9 million. It is expected that this category of expenditure will increase once all invoices are paid as part of the year-end financial payments.

### **Transfers and subsidies**

Expenditure as at end of June 2024 amounts R9.1 million compared to the YTD budget of R12.7 million. An under-performance of 29% is reported at the end of the quarter. Expenditure falling under this category include Grant-in-aid, payment to the Shark Spotter programme and our contribution to the regional landfill site.

### **Operational Cost**

Operational Cost YTD actuals after June 2024 amounts to R68.4 million while the YTD budget amounts to R88.8 million, which translates to an under performance of 23%. This includes items such as the rental expenses for offices, accommodation, insurance, travel and subsistence and telephone accounts. Some of the major contributors to this expenditure category is postage cost, external audit fees, bank charges and commission on prepaid electricity. It is also anticipated that this category of expenditure will gradually increase as all invoices are paid as part of the year-end financial payments.

Total expenditure for the quarter end of June 2024 amounts to R94.5 million.

### **Conclusion on Financial Position and performance**

The municipality is reporting a year-to-date operating surplus of R127.4 million. The current cash flow is sufficient to meet the short and medium-term operational requirements however, it is still not sufficient to sustain operations in the long term. The current ratio is below the best practice norms. The liquidity position remains below the best practise norm and a concerted effort is still necessary to ensure the financial turnaround of the municipality.

The implementation of the financial recovery plan, especially the revenue enhancement strategy, receives dedicated attention to aid in the financial turnaround and to ensure that financial viability and long-term sustainability will be attained.

### Section 4 – In-year budget statement tables

#### 4.1 Quarterly budget statements

The tables included in section 4 to the end of this report are from the 'C Schedule quarterly Budget Statement legislated as part of the MBRR.

Below tables analyse the income and expenditure by Function and the performance of each sub function. As mentioned above the performance will be increased with the implementation of the SDBIP.

Table below relates to the budget performance by municipal vote. Most of the departments has underspent on their expenditure budget and collection on their revenue budget is starting to improve as per below.

See tables below C1 and C3 for the quarter ended 30 June 2024.

I

### **Capital Expenditure Analysis**

Capital Expenditure at the end of the quarter amounts to R 36.4 million. Comparing the YTD budget and actual YTD expenditure we are looking at a 80% spending of the total capital budget.

It is crucial to prioritise spending on grants as historic trends in slow spending has shown us that departments tend to go for rollover applications process as they did not fully spend on their projects and these applications, at times, get rejected.

Grants	Original Budget	Adjusted Budget	Q1-YTD Expenditure	Q2-YTD Expenditure	Q3-YTD Expenditure	Q4-YTD Expenditure

#### Debtor's age analysis

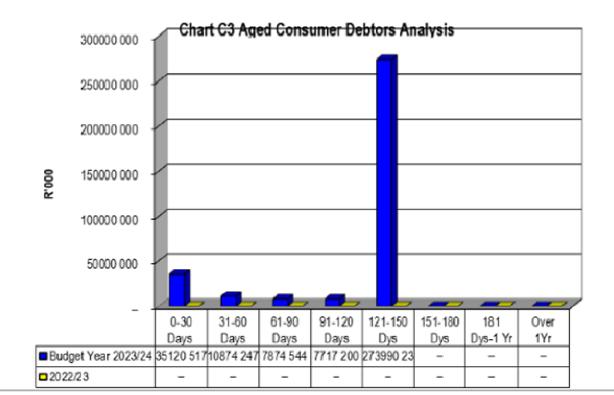

The debtors' book of the municipality reflects R 273.9 million as outstanding debt older than 121 days with a total outstanding amount of R 335.6 million.

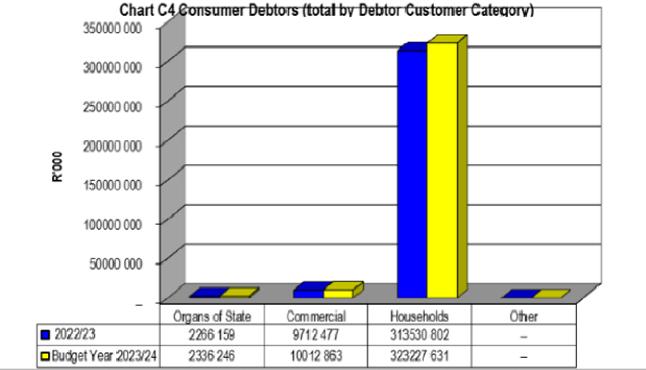

The contributors to the outstanding debt remain the household debt which represent 96.32% of total debt, followed by businesses with 2.98% and organs of state contributing 0.70%.

The municipality has monthly debt collection strategies to help ensure that outstanding revenue is collected, which includes blocking prepaid electricity for users in arears and applying water restrictions in arears where Eskom is the electricity distributor. Customers are informed prior to these actions being implement by way of a disconnection notice. Disconnection notices are sent monthly out to all customers with outstanding accounts after the due date which is 7th of every month.

The collection rate for the month of June 2024 is 93%, resulting in an average payment rate of just 90% for the financial year to date. See below debtor payment percentage breakdown achieved from April 2024 to June 2024.
